LAMILUX CI-System Glaselement FE rund

Harbour Terminal "Hafendüne", Norderney (Germany)

## Essential info

Place / Country:	Norderney, Germany
Year:	2018
Building Type:	Harbour Terminal
Solutions:	CI System Glass Element FE in round design

The newly built harbour terminal on Norderney is modern and flooded with daylight thanks to LAMILUX Glass Elements in round design. A total of 21 Glass Elements were installed above the reception hall and the administration offices. 16 of these have a diameter of 100cm and the remaining 5 have a diameter of 180cm.
